Attachment A to Form 1023: Response to Part II, Line Item 3

All fundraising and grant writing activities will commence starting the second quarter of 2004. Setup work to be concluded by the first quarter of 2004 include the development of an online donation page within one of the AirSafe.com Foundation's web sites at www.airsafe.com.

All the funds generated from the AirSafe.com Foundation (ASF) fundraising efforts will be used exclusively to support ASF programs in accordance with ASF's Bylaws and tax-exempt status. Fundraising efforts directed to the general public will be incorporated within all ASF web site development efforts and as part of all ASF publications. ASF web pages that solicit donations from the public will emphasize the non-profit nature of ASF, will provide links to information about ASF and its Board of Directors, and will provide instructions for sending donations by mail or online. Sample web page content is included as Attachment B.

The AirSafe.com Foundation will use Network for Good and PayPal as the means to receive online donations. Network for Good is a 501(c)(3) organization that provides online donation services for 501(c)(3) charitable organizations. Online donations through this source will be subject to a 3% fee to defray the direct costs that Network for Good incurs for processing donations. These direct costs include credit card fees, banking fees and check processing fees. PayPal is a commercial service that allows donations from credit cards or from other PayPal accounts. There are no PayPal fees for withdrawals, although ASF's bank may charge for electronic transfers.

Donations sent directly to ASF, such as checks sent to the corporate office, will be subject only to those processing fees that may be charged by the banks or other financial institutions used by ASF. Directors or volunteers will be responsible for any additional administrative efforts. Using these methods for processing donations, estimated processing costs should account for less than 3% of the value of any donations. Funding from the general public is anticipated to be more than 40% of all funding for 2004 and 2005.

In addition to efforts aimed at visitors to ASF web sites, ASF will also send donation requests directly to ASF mailing list subscribers (8,200 as of December 2003) or to those who may subscribe to an ASF publication. These solicitations will invite the person to visit the ASF web pages that contain the details of the donation process. Funding from ASF publications will be only from voluntary contributions from the subscribers and not from either subscription fees or advertising. Funding from mailing lists and publication subscribers is anticipated to be less than 20% of all funding for 2004 and 2005.

During the second quarter of 2004, ASF Directors will approach individual aviation-related companies for contributions for one or more specific projects mentioned in item 1 of Part II of Form 1023. Funding from aviation-related companies is anticipated to be less than 20% of all funding for 2004 and 2005.

During the second quarter of 2004, ASF Directors will pursue opportunities to obtain grants for one or more specific projects mentioned in item 1 of Part II of Form 1023. No specific grant source was identified by the end of 2003, and ASF does not anticipate formally applying for any grants before the end of the second quarter of 2004. Funding from this source is anticipated to be less than 20% of all funding for 2004 and 2005. ASF Directors will perform any grant writing activity and do not anticipate hiring the services of professional grant writers.

Why donate to us?

We understand that you work hard for your money and that you cannot give to every organization that you come across. We understand that you want as much of your donation as possible to go towards the mission of the AirSafe.com Foundation. For example, all of our members of the board of directors are volunteers. Who donate their time and energy and do so without compensation. When we do spend money, we make sure that we have found the most efficient and effective option and for the least amount of resources.
